EXPERIENCE

Web Developer

Raju Gari Ventures

Tirupati

- I have built (SARA), technical lead for developing real time web application . by using (RAG) models .
- Engineered and deployed a real-time web application leveraging Retrieval-Augmented Generation models, advancing the firm's technical capabilities and enabling more efficient data-driven decision-making.
- Developed and integrated RESTful APIs for the SARA platform, strengthening seamless communication between front-end and back-end systems and streamlining the flow of structured data to optimize user experience.

PROJECT

Smart Academic Resource Assistant (SARA) - AI Study Platform

February 2025 - April 2025

- Architected and led the development of a full-stack AI application designed to enhance student
- learning with features like personalized study plans, automated Q&A, and interactive flashcards.
- Designed the end-to-end user experience (UX), and evaluated the core backend architecture, including
- Using a hybrid Retrieval-Augmented Generation (RAG) model.
- Formulated intelligent resource recommendation algorithms that dynamically tailored content to individual learning styles, integrating adaptive feedback and real-time progress tracking to drive student engagement and achievement.
- Integrated advanced analytics dashboards within the Smart Academic Resource Assistant (SARA) to visualize learning patterns and deliver actionable insights for administrators, enhancing data-driven decision-making across academic initiatives.

EDUCATION

Intermediate Education with a focus on Mathematics, Physics, and Chemistry

TMR Junior college • 80%

SSC

Vision High School • 97%

- Completed secondary education with a strong academic record.

B.Tech in Computer Science

Mohan Babu University • 2022-2026 • 8.50 CGPA

- I am working a new on software project and I need to implement a new feature.

CERTIFICATIONS

Cloud Practitioner Certification

Online Platform

- Gained foundational knowledge of cloud concepts, services, security, architecture, and pricing.

SKILLS

Java

React, Node.js.
